

# Lauren Parker

Full Stack Developer

Albuquerque, NM | laurenabigailparker@gmail.com | 937-671-6979

GitHub: laurenabigailparker | Portfolio | Active Secret Clearance | USAF Veteran

## PROFESSIONAL SUMMARY

Full Stack Developer building production-ready web applications since 2022 using React, Next.js, TypeScript, JavaScript, SQL, Supabase, PostgreSQL, Node.js, and modern frontend technologies. Experienced leading development efforts across CMS platforms, SaaS applications, business systems, and client-facing web solutions from architecture through deployment. USAF Veteran with an Active Secret Clearance and a background in systems administration, logistics, and operational leadership.

## TECHNICAL LEADERSHIP

- Led architecture and development decisions across multiple full-stack applications
- Managed GitHub workflows, pull requests, deployments, and contributor onboarding
- Translated business requirements into scalable technical solutions
- Coordinated stakeholder communication, project planning, and iterative delivery
- Led frontend architecture, CMS development, and backend integration efforts

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, HTML5, CSS3, SQL

**Frontend:** React, Next.js, Tailwind CSS, Framer Motion, React Router, Recharts

**Backend:** Node.js, Express.js, Supabase, PostgreSQL, MongoDB, REST APIs, JWT Authentication

**Tools:** Git, GitHub, Vercel, VS Code, Postman

## PROFESSIONAL EXPERIENCE

### Founder & Full Stack Developer — Lauren Parker Studios (2022–Present)

- Architect and deliver full-stack web applications, CMS platforms, dashboards, and business systems for clients
- Lead project planning, technical architecture, deployment strategy, and stakeholder communication
- Design scalable solutions using React, Next.js, Supabase, PostgreSQL, and modern cloud tooling

### Full Stack Developer — ERA Solutions (2023–Present)

- Develop frontend and backend functionality in Agile development environments
- Integrate Supabase-backed systems and collaborate through Git workflows and pull requests

## FEATURED PROJECTS

### **Vetess — Project Lead, Full Stack Developer & UI/UX Lead**

- Architected the complete Supabase backend architecture, authentication system, administrative tooling, job board, veteran resources, donate functionality, admin dashboard, and career center locator. Managed GitHub collaboration, deployments, code reviews, and platform architecture decisions.

### **Warrior Dad Stories — Technical Lead & Full Stack Developer**

- Led development of a CMS-driven storytelling and media platform. Designed content architecture supporting blogs, podcasts, newsletters, events, media libraries, product management, and future ecommerce workflows while managing stakeholder communication and delivery.

### **ClientFlow CRM**

- Engineered a full-stack CRM platform with live client management workflows, analytics tracking, responsive dashboards, CRUD systems, searchable filtering, and Supabase integration.

### **InvoiceFlow**

- Built a full-stack SaaS invoicing platform using React, Node.js, Express, MongoDB, JWT authentication, analytics dashboards, responsive mobile UX, and production-style architecture.

### **PMP Inc Professionals**

- Developed responsive business website with backend integration and scalable content architecture.

### **Gateway Rock Design**

- Built conversion-focused business website using Next.js, Tailwind CSS, and modern UI patterns.

## MILITARY EXPERIENCE

### **Procurement & Quality Assurance Specialist — U.S. Air Force (2023–2025)**

- Managed \$112M in medical materiel supporting 259K beneficiaries
- Led distribution of 695K items valued at \$12.5M
- Managed a \$7.8M global medical readiness program supporting operations in 178 countries
- Served as DMLSS System Administrator and trained 24 personnel across operational systems

### **Shipping & Receiving Specialist — U.S. Air Force (2022–2023)**

- Managed inbound/outbound logistics operations and maintained inventory accuracy through structured tracking systems
