PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience designing, building, and deploying modern web applications using React, Next.js, JavaScript, TypeScript, SQL, Supabase, PostgreSQL, and Node.js. Experienced leading development efforts across CMS platforms, SaaS products, business systems, and client-facing solutions from architecture through deployment. Active Secret Clearance holder and USAF Veteran with a background in systems administration, logistics, project coordination, and operational leadership.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frontend: React, Next.js, Tailwind CSS, Framer Motion, React Router, Recharts

Backend: Node.js, Express.js, Supabase, PostgreSQL, MongoDB, REST APIs, JWT Authentication

Tools: Jira, Git, GitHub, GitHub Projects, Vercel, VS Code, Postman

Methodologies: Agile, Scrum, CI/CD, Responsive Design

TECHNICAL LEADERSHIP

- Led architecture and development decisions across multiple full-stack applications
- Managed GitHub workflows, pull requests, deployments, and contributor onboarding
- Managed Agile workflows, sprint planning, backlog prioritization, and task tracking using Jira
- Translated business requirements into scalable technical solutions
- Coordinated stakeholder communication, project planning, and iterative delivery

PROFESSIONAL EXPERIENCE

Lauren Parker Studios | Founder & Full Stack Developer | 2022–Present

- Architect and deliver full-stack web applications, CMS platforms, dashboards, and business systems
- Lead project planning, technical architecture, deployment strategy, and stakeholder communication
- Design scalable solutions using React, Next.js, Supabase, PostgreSQL, and modern cloud tooling

ERA Solutions | Full Stack Developer | 2023–Present

- Develop frontend and backend functionality in Agile development environments
- Collaborate with cross-functional teams using Jira for sprint planning, backlog management, issue tracking, and release coordination
- Integrate Supabase-backed systems and collaborate through Git workflows and pull requests

FEATURED PROJECTS

Vetess — Project Lead, Full Stack Developer & UI/UX Lead

- Architected complete backend architecture, authentication, admin tooling, veteran resources, donation systems, dashboards, and career center locator. Managed GitHub collaboration, deployments, code reviews, and platform architecture.

Warrior Dad Stories — Technical Lead & Full Stack Developer

- Led development of a CMS-driven media platform supporting blogs, podcasts, newsletters, events, media libraries, product management, and ecommerce workflows.

ClientFlow CRM

- Engineered a CRM platform with analytics dashboards, CRUD systems, filtering, and Supabase integration.

InvoiceFlow

- Built a SaaS invoicing platform using React, Node.js, Express, MongoDB, JWT authentication, and analytics dashboards.

PMP Inc Professionals

- Developed responsive business website with scalable content architecture.

Gateway Rock Design

- Built conversion-focused website using Next.js and Tailwind CSS.

MILITARY EXPERIENCE

Procurement & Quality Assurance Specialist — U.S. Air Force (2023–2025)

- Managed \$112M in medical materiel supporting 259K beneficiaries
- Led distribution of 695K items valued at \$12.5M
- Managed a \$7.8M global medical readiness program supporting operations in 178 countries
- Served as DMLSS System Administrator and trained 24 personnel

Shipping & Receiving Specialist — U.S. Air Force (2022–2023)

- Managed inbound/outbound logistics operations and maintained inventory accuracy
